Necklaces

Since all of my bracelets are at least 8" long, when you add the X8 to one, you will make it into a 16" necklace. The same applies to the X10 and X14, which makes a 18" or 22" necklace.

Childrens Bracelets

This unique design, the Cross and the Fish represents the Old and New Testaments.

This unique design, the Cross and the Fish represents the Old and New Testaments

All Bracelets are at least 8" long
hook them the link that fits.

About the Artist

As a child, I was always using my hands to build and create. Growing up with a Mother as an Artist/Designer and a Father using his hands as a Dentist, I was immersed in a creative, hands-on environment, rich with priceless learning experiences and valuable practice opportunities. I spent years developing my natural abilities and "God Given" talents to become a skilled craftsman. It was only natural to form my own company, "Ken's Jewelry" in 1990.

I began my undergraduate studies at East Carolina University where I studied business. Upon graduating from Savannah College of Art and Design with a Film and Video Production Degree, I started my career as an Investment Banker/Stock Broker in Atlanta until the collapse of the financial market after 9/11.

I have now come full circle by moving back closer to my roots on the waters of Eastern North Carolina, starting a family and doing something I truly love. Through my business, Ken's Handcrafted Jewelry, I have discovered once more the pleasure of visualizing designs while creating jewelry.
